### VOLUNTEER FIRE DEPARTMENT

The year 1943 we answered the following calls in town:

Chimney fires 11, Building fires 2, Forest Fires 6.

During the year we were called to assist at the Hampstead village fire and also one in Sandown and at the forest fire in Auburn.

Damage during the year has been slight with the exception of the Old Town Hall which was a total loss, much regretted by the Department.

The Fire Chief requests that anyone calling the operator to report a fire, give full details to avoid unnecessary delay.

New equipment:

500 feet 1½" fire hose

150 feet 2½" fire hose

12 kerosene lanterns

2 tires for hose trucks

New stove for fire house.

450 feet of this hose was to replace old unserviceable hose.

Victor B. Spollett  
Fire Chief.

## REPORT OF THE FOREST FIRE WARDEN

Crisis like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

Victor B. Spollett, Acting Forest  
Fire Warden, Chester.

Organization and Administration

The problem of teaching personnel has made itself felt in the Chester schools. Unfortunately change of residence made it necessary for Mrs. Emily Philbrook to resign her position at Thanksgiving time. Until such time as the services of Mrs. Ethel Scott were available substitutes for a few days at a time made the educational program in the grammar school lack continuity. Mrs. Holmes' resignation made a vacancy which was difficult to fill. Mrs. Hazel Hart was finally secured to fill the vacancy. With the return of Mrs. True and Miss Fowler the schools have with the exception of the period noted above been regularly in charge of competent experienced teachers. It is of tremendous value to the children to have such competent teachers in charge. It is the policy of your superintendent to engage teachers of successful experience, when available, and in the long run such a policy will prove beneficial to the pupils.

The policy of augmenting the available supply of reading materials has been continued. In so far as available funds permit replacement of the oldest texts are made when newer books offer definite advantages to the pupils of Chester schools.

The greatest disruption to the regular program of the schools occurred with the loss of the old Town Hall. The entire system of the town was effected because supplies for all schools were stored in the building. Pencils and pencil sharpeners destroyed are irreplaceable. All other supplies have been replaced and the schools have had no interruptions except for the grammar school program. Books were ordered and with few exceptions were in the hands of the pupils upon the reopening of schools after Christmas. The greatest adjustment was necessary in the use of the new books. The total loss made it possible to replace the older texts with more modern text books and for a short time the adjustment was somewhat difficult. In addition the loss of many supplementary texts and reference books makes it more difficult to do the extensive reading so necessary in our modern educational program.

That our program was disrupted as little as it was is due to the fine cooperation of several groups of people. The school district is especially grateful to the W. R. C. and J. O. U. A. M. for the fine way in which they allowed for the housing of the grammar school. The school board of Derry also permitted the school to use enough desks and chairs to provide for the pupils of the grammar school. The cooperation of these groups, publishers, and supply houses made the arrangement, necessarily an emergency one, possible. Words are inadequate to express the appreciation felt by the school board and superintendent for the fine spirit of cooperation evidenced in the emergency.

The program for 1944-45 is necessarily upon the basis of temporary measures until such times as a per-

manent solution of the school housing problem is worked out. This problem is not one that is easily solved and much time and effort must be expended before definite recommendations can be presented to the district for action. The program for 1944-45 plans for the use of the brick school as a temporary class room for the upper grades. It involves some necessary repairs which are to be as inexpensive as possible. It also involves additional transportation.

The usual program of cleaning was in force during the summer of 1943. The necessary repairs were completed. As stated in the last report the school board, because of material and man power shortage, avoided any repairs which could be postponed. The continuance of such a policy seems advisable for at least another year.

### The Budget

The proposed budget without special articles shows an overall increase of \$1,560.80. A detailed analysis of this large increase reveals that the bulk of the increase \$780.74 is in the single item of high school tuition. This item is one over which no control can be exercised. Educational opportunity at secondary school level must be provided. In addition to an estimated increase in the number of tuition pupils the tuition costs have advanced approximately 25% in the last two years. Estimated increase transportation costs of \$182 and the renewal of insurance policies on school property \$142.50 account for \$324.50 of the balance which leaves \$363.36 to be accounted for in all other items.

The schedule of estimated income is only increased by \$20 so that the total tax levy is increased \$1,541.23. With \$1,205.24 accounted for in items beyond the control of the board the increase is only nominal for controllable items.

## Conclusion

The greatest problem confronting the board and the district is the matter of school housing. In my opinion the suggested plan for 1944-45 is too expensive in several ways to be adopted as a permanent solution. Several alternative solutions can be presented and under Article 10 of the warrant provision is made for the appointing of a committee to consider these possible solutions and to present a report to the district.

I wish to express to pupils, parents, teachers and school board my deep appreciation for their cooperation in the effort to provide the greatest educational opportunity for the pupils of Chester.

Respectfully submitted,

Everton H. Parkinson
